

Scourge Special Rules

Scourge Unit Special Rules

Cling

One Squad with Cling may be chosen Embarked aboard any Aircraft without the Cling special rule, including non-Transports, with the same or more initial DP than this Squad's combined DP—Transport Symbols are ignored. This Squad joins that Aircraft's Group.

Once Disembarked, it may not Embark into Transports.

Plasma Generator X"

Friendly Weapons with 'plasma' in their name gain +1E if they attack while within X" of this Unit. This is not cumulative with other Plasma Generators. Weapons on Fast Movers are not affected.

Scourge Weapon Special Rules

Razorworm Pod

This Weapon may only target Zones. For each DP it inflicts, place 1 Unit of Razorworms in that Zone. All Razorworms placed in a Zone by Razorworm Pods form one Squad at the end of their Group's attacks, within that Group. These Razorworms count as having Embarked into that Zone and may do nothing further that Round except fight in a CQB.

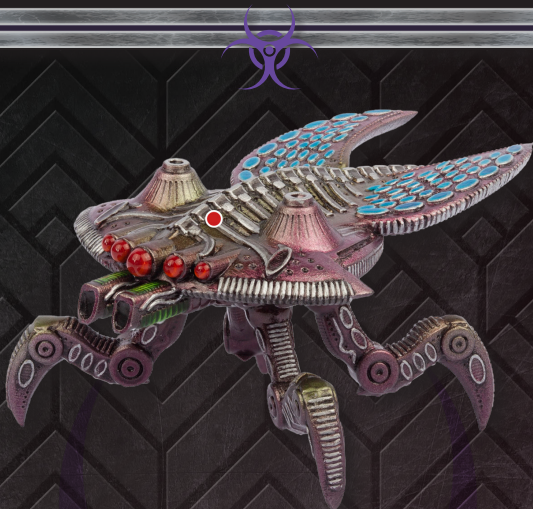

Razorworms created via Razorworm Pods do not grant KP or otherwise count for Scoring, but do Contest or Control Zones as normal.

Spark

Spark Weapons gain Ac 2+ against Aircraft but cannot damage Zones.

Despot Command Walker

4

Type		Mv	A	DP	Special			
Vehicle		6"	6	3	Command Centre, Resilient
