

Dropzone Commander V3.0 Printed Rulebook

Errata 3.01

Firstly, thank you for investing in and playing Dropzone Commander 3rd Edition. The rulebook went to print earlier, and we have since spotted some issues that need addressing. Mostly, these cover obscure interactions and clarifications. The digital rules already incorporate these changes. Thank you for your understanding. Enjoy the game!

Pg 16, Playing Command Cards. Add the following paragraph to the end of this section:

If a Command Card requires a Unit have a special rule or not have a special rule (e.g. if it Effects Units with Assault, or it Targets Units without UC), that Unit must have that special rule natively on its stats sheet.

Pg 31, Radius Effects vs Occupiers. Add the following paragraph to the end of this section:

You may only measure a radius or distance from an Occupier to anything outside the Zone if it is Sited. Measure as if you were attacking. From a Building, you may measure from a different point to each Unit measured to. Units Occupying the same Zone are always within the radius or distance.

Pg 32, Weapon Features Table. Flak Turret should have Att 6.

Pg 38, Battle Royale. Amend Attrition to 2 VP.

Pg 45, Jump X". Amend first paragraph to:

If it does not Embark or Disembark from a Unit that activation, this Unit may Jump when it starts moving—during its move, but not at its end, it is an Aircraft with an X" Mv. If Embarking/Disembarking from a Zone, this Mv is not halved.

Pg 45, Large. Add the following paragraph to the end of this rule:

If the size of a Large Vehicle makes it impossible for a Weapon to get into range against it, physical contact is sufficient.

Pg 47, Strong. Amend rule to:

Per Squad with two or more Strong Units in a CQB, one enemy Squad of your choosing suffers -1DF for that CQB, assigned at the start of step 1 of that CQB.

Pg 48, Assault. Add the following paragraph to the end of this rule:

If a Unit with an Assault Weapon Disembarks then moves 0", it counts as having moved 1" for attacking purposes.

Pg 49, Field. Amend second sentence to:

Instead, each Zone, Vehicle, and Infantry Unit within its R are assigned attacks equal to its Att.

Pg 49, Field. Amend 3rd paragraph to:

Units within this Weapon's Squad are not damaged by it and cannot receive Concussed, Jammed, or Suppressed Status Tokens from it.

Pg 49, Flame. Amend the first sentence to:

This Weapon ignores the Ac penalty against Obscured targets, and it ignores Evasion.

Pg 51, Tokens. Add this symbol reference for Jammed:

Pg 51, Tokens. Add this symbol reference for Excellent Vantage

Dropzone Commander 2 Player Starter Set V3.0

Ephemera Errata

Bioficer Fastplay Sheet

Decon Rule. Replace first three words with: 'Whenever an enemy Unit'

Silence Heavy Gunship Images (both instances). Shown with incorrect Weapons. Should be:

UCM Fastplay Sheet

Praetorian Spec-Ops - change weapon name to: UM-3K Carbines
NB: This has no bearing on gameplay – it's a lore update we missed.
